AP headline: More than 400 Palestinians killed in surprise Israeli airstrikes across Gaza.

Why are they surprised. They didn't want to make peace and Israel said there will be hell to pay. It's amazing the slant of the media.

Reuters: Ceasefire with Hamas on the brink after more than 400 Palestinians reported killed in Israeli airstrikes. Again Hamas said no at the bargaining table and Israel said we're going to kill you. Very simple.

Hamas was preparing to do another October 7th massacre, when Israel attacked. Israel will never again be caught sleeping.

Nothing funnier than Tren de Agua gang members telling ICE they can't open their car, it's illegal. But rape and murder is OK.

The media when you mention Tesla, they mention January 6th. Here's the answer. The January 6 defendants have spent 3 years in jail before being pardoned. So I think the people that burnt Teslas or otherwise vandalize them should spend 3 years in jail and then be pardoned, of course only after paying full restitution.

Effective April 1st, Social Security Administration will require in-person identification for anyone registering for benefits, if the identification cannot be authenticated via the current social security methods. We will give you more information as it becomes available.

The only normal Democrat is John Fetterman. He was in Israel learning first hand what is going on.

Israel is not playing games. They said for every hostage that is killed, Israel will take Gaza territory. This is the one thing Hamas fears, because Gazan's don't want to live on smaller territory and Israel will probably take the beach.

I think Elon Musk should fund people suing for punitive damages for defacing Tesla's. This is in addition to the criminal charges.

How can President Trump get a third term. He identifies as a dog. The 25th amendment says: "People." He's a talking dog. People can identify as anything they want these days.

Senator Kennedy says: "Chuck Schumer and the Democrats are about as popular as chlamydia."

FBI since January 20th have arrested 3 of the top 10, on the FBI's most wanted list. More winning.

We have to get over this impeachment BS. We don't have the votes for an impeachment and we definitely don't have one for conviction. We should have congressional hearings on judicial activism. That is where we can shine and do whatever we want to make the judges look bad.

The left is moving further from the center, which means they could have a real hard time in the next election because about 50% of the Dems are going to go to the right, because the left is nuts.

Donald Trump settled with a law firm that hired the guy out of the Manhattan DA's office. The settlement is \$ 40 million in pro bono legal services defending the federal government's policies. That's a great addition to the Justice Department having extra hands in the private sector.

Chief Justice Roberts said there are no Republican judges and no Democrat judges. Yet Chuck Schumer says they put 235 progressive judges on the bench. Which one is lying?

Alaska and Taiwan have agreed to an investment of \$44 billion dollars in the Alaska and natural gas pipeline. Also Taiwan commits to purchasing LNG from Alaska. More winning.

Are green card holders being given extra scrutiny at US ports of entry. Not enough information to say. When anyone re-enters the United States, their computer, their phone, their information, everything is subject to review. If they find out that you broke a law and you are green card holder, you may be deported.

The Israeli blockade of food to Gaza started March 2nd 2025. The citizens of Gaza probably realized they were about to starve. Mix in that Hamas is being killed left and right, and the citizens are starting to demand a turnover or to move someplace else. Africa is looking better and better.

President Trump's ultimate weapon against the judiciary is his ability to pardon for criminal contempt citations. We'll see if he needs to do that to the DOJ lawyers.

The star of Snow White, Rachel Zegler is just so ugly with short hair. I normally don't mention people's looks, but there's something about her. The fact that her movie bombed is just icing on the cake.

California had 13,000 homes that were destroyed and 270,000 applications for FEMA. No room for fraud here.

Gladys and Nelson Gonzalez. They have been in the United States illegally since 1989. Their children were born here. There was no way to make their status legal. They were arrested and deported. It is sad but they knew this day was coming.

DOGE has been removing Social Security numbers from those over 120 years old and there are millions of them. That does not mean that they are being paid benefits, but the ability of fraud is huge because the Social Security number is the backbone of everything we do in America.

Meme of the Week:
Gaza is truly a miraculous place. Every building is a hospital or school, and every journalist is an infant, a journalist or charity worker.
