The British press is going nuts over Israel's decision to close the East Jerusalem consulate. Good. Maybe they will learn that there are consequences.

Zero female firefighters, one female cop, one female EMT, and one female Port Authority employee were among the heroes who died on 9/11. How many male first responders died?

I don't understand the "immigration violations are civil penalties" crowd. Yes, they are, and the remedy is deportation. It's not a criminal conviction. It is sending you back home.

A transgender inmate in a New Jersey women's prison impregnated two female inmates. What is wrong with this picture?

When a man harms a child, the prisoners will eat him. When a woman harms a child, she gets a fan club and a million dollars.

California high school graduates have more 4.0 GPAs than ever before. They're also functionally illiterate. Can you spot the problem?

When the Saudis need intelligence information, dial 1-800-Israel.

It seems men are not buying women drinks anymore at the bar. Could this have something to do with the fact that drinks are now $15?

"We hate the Jews. We're 100% behind Palestine." Okay, but we're having secret meetings in Germany with Israel. Who? Will you believe —Qatar, Kuwait, Saudi Arabia, Jordan, or Egypt? Why? They need Israel to defend them.

Social Security was signed in 1936, and people died before age 60.

How has the Inflation Reduction Act raised the price of drugs? Rather than having a flat rate for drugs, such as $15, $30, or $47 for a Tier 3 drug, they have now gone to a percentage, which means that the senior pays more. That's what happens when Democrats try to make things better.

I am at that funny age. I still feel like a kid, but friends my age are dying. Maybe it's not so funny.

A woman sent a million dollars over time to a man online whom she had never met. She fell in love with him. In the early days of internet dating, I was very active. My rules were simple: a couple of text messages, one or two phone calls, and then we meet in person for coffee. Any deviation, and I drop them. It's that easy.

When the Arab armies invaded and attacked Israel, they were trying to get land for themselves. They weren't trying to get land for this place called Palestine.

Mississippi used to be the worst in the nation for education. Today, it ranks number nine in fourth-grade literacy.

The U.S. poverty rate fell to the lowest level on record. This is the Trump policy.

Congressman Jared Moskowitz of Florida said that Jewish members of Congress are feeling politically homeless these days. They are worried that America is no longer a safe place for Jews.

States with the strongest teachers' unions have the worst test scores in the country. What does this tell you?

Oh, my God—we're all going to die. Not from AI, but from Y2K. Remember?

Crazy government rules: This time of year, people are getting their Annual Notices of Change from their Medicare carriers. If you call us, we can talk about it and tell you that we don't know anything about the new plans yet. But we can't call you, even though we know that your plans are going to be canceled. That's the craziness of our system.

This is the time of year when people receive their Annual Notices of Change from their Medicare carriers. If you don't understand your Annual Notice of Change, please give me a call. I'm happy to help you with it.

Why are prices so high?
A big reason is the push for a $15 minimum wage. Even in states that don't have a $15 minimum wage, most businesses are paying that or more. So, what's the net effect? Inflation. Would you like a $25 minimum wage? Rent goes up, car prices go up, food goes up, insurance goes up—everything goes up. That's the problem with raising the minimum wage. A lot of the socialist countries that people talk about do not have a minimum wage.

Trump gets his way in another negotiation. He wanted Greenland. He said we would buy it or invade it, but what he wanted were the military rights. He received them, and neither China, Russia, nor other Non-NATO countries can establish a base or maintain troops in Greenland. This treaty does not have an expiration date. Another example of Donald Trump doing everything he set out to do.

The President of Yale has said that they cannot stop grade inflation because these students are used to getting A's their whole lives, and they cannot handle getting anything less than an A. This is insanity.

Under Biden, 442 members of the media lost access to the White House. Under Trump, the number is three.

I don't know how true it is, but a reporter was interviewing Christians in California and asking them how they say "God." They all said "Allah."
