**Inspecting shampoo bottles:**
**Women:** Shampoo for dry and damaged hair.
**Men:** Shampoo 6-in-1 for hair, face, body, carpet, car, and dishes.

**The Chinese are paying for anti-data-center protests in the U.S. If they can stop the building of data centers, they can gain a huge advantage over the United States. And knowing this country, they might win.**

**What kind of idiot thinks that if they lock themselves in a car, the police will not enter? They just break the glass every time. And when they do, the screaming starts. Yes, it's mostly women who do this.**

**Where don't you see pro-Palestinian protests? The rich Arab countries. You might find them in Egypt or Pakistan, but you don't find them in Saudi Arabia, the United Arab Emirates, or any other rich Arab countries. This is why they are rich and the others are poor.**

**A daughter is crying that her father had a stroke, is in the hospital, and they want him released from ICE custody. In 1991, a judge issued a final order of removal. He was taken to the hospital with stroke-like symptoms and is currently being monitored for high blood pressure. For 35 years, this man had a removal order to leave this country. The daughter did not mention anything about it.**

**Remember Simone Gold, the California doctor who, during COVID, preached hydroxychloroquine? She was convicted over January 6th, for making a speech inside the Capitol. She was sentenced to 60 days in federal prison. She has developed a better and cheaper insurance plan that is currently available in all 50 states for groups of two or more. In about a month, the individual plan will come out. If you have a group of two or more, please contact me.**

**Remember, the Trump tax cuts on tips, overtime, and Social Security income expire in December 2028. That means the entire campaign will be about Republicans renewing the tax cuts and Democrats gutting the tax cuts. It will be very interesting.**

**Why don't Israelis care what the world thinks of them? When the Jews were being sent to the gas chambers, no one saved them. No one protested on their behalf. The Church did not speak out. No one bombed the rail lines. So why should world opinion matter to them now? It did not save them from death.**

**The FDA approved a pancreatic cancer drug. It doubles people's life expectancy. Pancreatic cancer is the deadliest of all cancers.**

**The New York City bodegas have banded together to sue Zohran Mamdani over his plan to create public grocery stores. Remember, for every idea, there is a constituency against it—a counter-constituency.**

**The Palm Beach County School System had a drop of 7,000 students from last year. Last year, it dropped by 7,000 students from the year before. Does the illegal immigration crackdown have anything to do with this?**

**Hundreds of white women dressed in pink were outside the courthouse supporting Lindsay Clancy, the alleged killer of her three children. They were all white. No Black women, no Hispanic women, no Indian women—all white.**

**The police videos of traffic stops are always the same. The person starts fighting with a cop, and eventually two, three, four, five, six, or seven police officers show up. I have seen many videos, and they all have the same scenario. So why are you starting with them? The police are going to win, and you're going to face more charges.**

**I spent the last few weeks having my AI reprogram my CRM to change the workflows. Most of you will have no idea what I'm talking about. That's okay. I was in Staples today, and a guy who must have been about 80-something was buying a tape calculator. Dear God, please don't let me get so far behind that I'm 25 years behind the technology. This is highly personal. I'll speak more about this in the future.**

**It is said that the shingles vaccine reduces dementia risk by 24%.**

**Did you go to the renaming ceremony? Canada geese are now called Donald's Ducks.**

**I wish transgender women could get periods. That would end this movement in about 28 days.**

**Buc-ee's has some strict rules about employee tattoos, unnatural hair colors, open-toed shoes, body piercings, etc. Is there anything wrong with them wanting to have a wholesome dress code?**

**HUD is now investigating Section 8 recipients for fraud. They should find a gold mine.**

**Trump is now working within narrower parameters on birthright citizenship. It might be legal: parents who are members of foreign terrorist organizations, foreign government employees, or participants in transactions or fraud intended to obtain birthright citizenship. Legally, he may be on the right track.**

**I think Trump squeezing Iran economically is really working. But if he had not carried out the military operation, it would have had no effect.**
**And it's coming right before the midterms.**

**I don't think Trump does anything without looking at the election calendar. Everything feels like it's coming together, including the deal with Venezuela.**

**The question that should be asked about the pro-Palestinian movement is: Are the Jewish people entitled to a safe space? The only safe space that exists in the world for the Jewish people is: "Israel."**

**To the many Chabad rabbis and families who read this newsletter: Thank you for continuing to bring faith, kindness, and light to your communities. Please remain strong and know that many of us stand with you, pray for you, and deeply appreciate everything you do.**

**In the Mike Caruso case involving the former Palm Beach County Clerk, the judge said, "There is insufficient evidence for the court to make the finding of a substantial probability that the defendant committed the offense." He granted $160,000 bail. In other words, this case is starting to fall apart. We'll see what happens.**

**One country that has a lot of land that's not being used is Canada. Let's move the Palestinians there.**

**President Trump plans to refill the Strategic Petroleum Reserve with oil from Venezuela. This corrects a major problem created by Joe Biden.**

**The street-blocking protests are really nuts. We don't have that problem in Florida; the law is very clear. But people can hang onto your hood, and you can't run them over. They need to make a law that when that happens, you can run somebody over. It's their own stupidity that gets them into this mess.**

**The UAE is cutting funding for its citizens to study in the UK because it is afraid of them becoming radicalized. What does this tell you?**

**Meme of the Week:**
**Romance after 60 is bringing home the correct prescription, without being asked.**

**Bonus Meme of the Week:**
**Nothing tests a marriage like assembling furniture with one instruction sheet and two opinions.**

## NON OBAMACARE PLANS

**You can buy non-Obamacare plans at any time in the year. If you're high income they're a great opportunity. And now with Goldcare we have more opportunities.**

**Add in cancer plans, with one out of two men and one out of three women getting cancer, And Indemnity plans to cover those Medicare copays.**

**We have everything you need. You just need to ask. Call or text 855-561-0500 or email Alan@HealthPlansMadeSimple.com 7 days a week.**
