Latest from Pallywood: Six pallbearers are wheeling a body through Gaza. Air raid sirens go off. They leave the body there. Then the body gets up and runs off. You can't believe the videos from Gaza.

I am thinking Trump reads my column. I said they need to make TikTok videos of a nuclear bomb going off in New York City and show the destruction, with millions of people dead. And Trump just said they can take out Los Angeles or San Diego. He is making it real.

A quick note on the Cornell rape allegation: The only person who reported an assault was one of the men, who said he was too drunk to consent and that she took advantage of him. We will see what comes out of this.

It looks like the Paramount–Warner Bros. merger has gone through, creating a new company: Sundance.

An Israeli newspaper reported that the Arab countries and Israel have agreed to a defense bloc. Translation: Israel helps defend us, and we give them what they need. When the cousins work together, it's beautiful.

I just read about a homeless man, 70 years old. He had Original Medicare, no Medicare Advantage. He got sick and became homeless. I cry. Had he met an agent and spoken with the agent, they could have put him in an Advantage plan that covered all his bills, maybe put money back in his pocket, or maybe put him on Medicare and Medicaid. So many options are available, but because people are afraid to ask and afraid to get information, they wind up homeless and in debt. Don't let this happen to you. Most importantly, he was sure when he retired that he had enough retirement funds to make it.

2,220 terrorists were arrested by ICE during Trump's second term. So much about arresting only hardworking Immigrants.

More Cornell news: The bar named in the woman's lawsuit says she was never served any alcoholic beverages by bar employees. You're going to see the civil case fall apart.

The Israeli Defense Minister says, "No terrorists from the October 7th massacre will die peacefully." That is the way it should be.

France wanted to recognize a Palestinian state. Looks like they got one.

Mike Caruso, the former Palm Beach Clerk of Courts, is still on the Republican ballot. The idiot Republicans of Palm Beach County put out a voter guide with his name in it. You can imagine what the Democrats and the media did with that.

Even today, the Palestinians would be happier killing two Israelis than having a workable Gaza. Because for them, killing Jews is a way of life.

Let's contrast that with Israelis. They go on a plane. They thwart a hijacking. They sing and dance. Am Yisrael Chai. The children of Israel live.

You remember I wrote about leaked grand jury information that accused DeSantis of funneling $10 million to a foundation for Casey DeSantis' initiative. Well, the appeals court weighed in. They ruled: the Tallahassee grand jury went above and beyond, and what they did was illegal. Surprise, surprise.

Approximately 70% of all people who get cancer have eaten pickles. Most people who recently died in a car accident ate a pickle in the past year. All Americans who ate pickles in 1901 have died. Therefore, pickles kill people.

Right now, Democrats are 31,000 ahead of Republicans in mail ballots returned in Florida.

Why do Arab towns in Israel or under the Palestinian Authority look like garbage dumps? Because Israel spent 80 years building a country. The Palestinians spent 80 years trying to destroy a country.

In Canada, are people turning to assisted suicide because they can't get medical care?

Israel found the underground tunnel system in Hezbollah territory. It literally was an underground city. Hezbollah spent years building it. It's amazing how much money Israel's Arab enemies spent on tunnels. This was an underground military installation.

Two weeks before the 2018 election, CNN had Andrew Gillum at 54% and Ron DeSantis at 42%. Thank God DeSantis won.

In 1945, Eisenhower ordered that the Holocaust be filmed—the dead bodies, the survivors, everything—so that people could someday not deny it.

Ruger is coming out with a new pistol in honor of the United States Congress. It will be named: "The Congressional," because it doesn't work and you can't fire it.

In 2006, the mortality rate among wounded IDF soldiers was 15%. In the current campaign, it is 7.1%. It took 15 to 20 minutes for advanced medical care to reach a wounded soldier 20 years ago. The presence of a doctor in every company makes it possible to provide complex medical treatment within four minutes. The United States is rushing to adopt the IDF model.

I saw a meme of actors on Mexican television versus Mexicans in Democrat ads. On Mexican television, all the actors are white. In Democrat ads, all the Mexicans are brown.

The number of high school girls claiming to be lesbian or bisexual has been cut in half from 2021 to 2025.

Proof that there is no genocide: Why does Hamas hide behind their kids? Because they know that Israel is loath to attack children. Therefore, if Israel hesitates to attack children, there can be no genocide.

Meme of the Week:
Before you marry someone, watch them try to cancel a subscription.
That's the person you'll be negotiating with.

Bonus Meme of the Week:
Growing old together is a beautiful thing.
You finally have someone who also wants the music turned down.
